

The IB Diploma Program at Korah Collegiate

The *International Baccalaureate Diploma Programme* is a widely recognized two year university preparatory, comprehensive international curriculum that allows graduates to fulfill requirements of various national education systems. Mastery of subject content, global-mindedness, rigorous assessment standards, development of critical thinking and research skills all help students prepare for success at post-secondary institutions in North America and abroad. The IB Programme gives students the opportunity to investigate disciplines at greater depth and breadth than they might normally.

Enhanced Learning Programme:

The Enhanced Learning Programme is an academic regimen which introduces students to an enhanced curriculum during their grade 9 and 10 years. The purpose of the Programme is to prepare individuals to enter the International Baccalaureate Diploma Programme in their grade 11 and 12 years.

International Baccalaureate Programme:

The International Baccalaureate Diploma Programme is a two year programme offered at Korah Collegiate. This programme requires students to attend Korah Collegiate during their International Baccalaureate studies in grade 11 and 12. However, it is highly recommended that students first complete the Enhanced Learning Programme at Korah Collegiate in grade 9 and 10. Contact the school for more information about student transfers and application to grade 10 or grade 11. The International Baccalaureate Diploma Programme is a demanding two year, pre-university course of study leading to examinations for highly motivated students, ages 16 to 19.

For more information about the International Baccalaureate Diploma Programme, contact Korah Collegiate at 705-945-7180.
